NOTICE OF ALLOWABILITY

Response to Arguments

1. Applicant's arguments filed March 21, 2005, with respect to claims 1-12 have been fully considered and are persuasive. Specifically, the persuasive arguments were that the Clarke (US 5,139,850) conductive mesh 4 does not constitute an adhesive tape and Clarke also does not disclose using an insulation layer. The rejection of claims 1-12 has been withdrawn.

Reasons for Allowance

2. Claims 1-12 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Claim 1 is allowable because the prior art alone or in combination does not teach or fairly suggest an electromagnetic wave shielding method, comprising laminating a cushioned conductive adhesive tape by using an insulation adhesive layer to a rim portion of said window face provided with said conductive shielding layer, taken in combination with the other claimed features.

Claims 2-12 are allowable because the prior art alone or in combination does not teach or fairly suggest an electromagnetic wave shielding window, wherein by using an insulation adhesive, a cushioned conductive tape is placed next to said insulation layer at said rim portion of said window face member provided with said conductive shielding layer, taken in combination with the other claimed features.

Art Unit: 2831

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
